

Network Digital Menu Board

## All-in-One Solution

Combine a commercial grade LCD screen, an Android Network Media Player, 1 year free subscription to our premium Digital Signage software as well as a 3 year warranty and lifetime technical support. Digital Menu Boards have been made easy with this package, there is no complicated software installation; it's a straight out of the box Digital Signage solution. Get this All-in-One solution from the same supplier, it really is that simple.

## Template Library

Browse and choose from our exclusive library of Digital Signage templates. Within each predesigned template you get the original media files, template layout and playlist. You can customise each of these to just how you would like. You can add your own branding, images or videos. Change the font size or colour. The template are fully adaptable to your needs.

## Narrow Bezel

The narrow bezel on the Digital Menu Boards allows your menu to take centre stage. When multiple Digital Menu Boards are placed side by side there is a virtually seamless display thanks to their thinner edges and superior image precision.

## Commercial IPS Panel

With a commercial grade IPS panel with a brightness of 450cd/m<sup>2</sup> (twice the brightness of domestic televisions) this Digital Menu Board is able to reproduce and maintain the ultimate colour temperature for lifelike images even in the most challenging lighting environments. With a lifespan of over 50,000 hours the screen can be in use 24/7 with no loss in image quality. There are no external buttons or controls on the screen to avoid tampering.

4x Years Included

## Complete Package Screen + Software

Included with your signage bundle our award winning cloud based management system. 4 years of full unrestricted access to the software backed up by our technical support service. Following this period you can extend for 1, 2, 3 or 4 year periods or even a lifetime access package.

## Update Instantly and from Anywhere

Updating your screens is extremely simple. Login to [www.MySignagePortal.com](http://www.MySignagePortal.com) to upload media, manage playlists, create your own templates and schedule content for whenever you want, giving you complete control over your network. No special software installation or dedicated PC is required, you can update your screens from anywhere in the world with an internet connection.

## Create Your Own Templates

Design your own templates and layouts with different media zones for your branding, images and videos. Other Network features include being able to insert webpages, scrolling text messages and custom backgrounds to your designs. Maintain your brand consistency by adding your logo and customising your colours.

## Multi Screen Synchronisation

You can synchronise your Digital Menu Boards across multiple screens provided they are connected to the same network. This is ideal for menus above the counter.

## Overview

### Narrow Bezel

Narrow Bezels allow multiple Digital Menu Boards to be placed side by side that create a near seamless display. With minimal distractions your customers now get a greater viewing experience.

### Environmentally Friendly Power Timer

Allows for reduced power usage by automatically powering off in hours that the displays are not required. You can set daily On/Off times for your displays.

### Built in Wi-Fi

Connect the screen to the CMS wirelessly via the integrated Wi-Fi or by LAN

### Advanced Temperature Control

Designed to run 24/7 in constant use the display has an advanced temperature control system to keep it running at the optimum temperature no matter the environment.

### Integrated Android Media Player

The integrated Android Media Player allows for super fast updates. If required you can also run third party Digital Signage software via the Android PC board.

### Commercial Grade

Designed for use in commercial applications this screen can run 24/7. No external buttons or controls to avoid tampering.

### Portrait/Landscape Orientation

The screen can be used in either a landscape or portrait orientation depending on your requirement.

### Mounting Solutions

We can provide a variety of different ways to mount your menu board including flat wall mounts, tilted wall mounts, ceiling mounts and floor stands to suit your requirements.

### IPS Panel

Superior image quality with an ultra wide viewing angle of 178°, the screen shines bright thanks to its 450 cd/m<sup>2</sup> brightness rating (more than twice as bright as a domestic television). From bright sunlight to the most challenging lighting environments these displays are designed to reproduce and maintain the ultimate colour temperature for lifelike images' in both landscape and portrait orientations.

### Plug and Play

If there is no internet access available the screen can still be updated thanks to their backup USB update option. Simply package up your Playlist onto a USB stick and insert into the screen. Your templates, schedule and content will now copy over and start playing.

# Network Features

## Static Text

Allows you to input custom text values

## Office Documents & PDF's

Display PDF files alongside Microsoft Word, Excel and PowerPoint files

## Webpages

Allows you to display a live webpage such as a social media page or live web feed

## Videos

Multiple videos playing in a continuous rolling loop

## Image

Multiple images playing in a continuous rolling loop

## Logo

Brand your layout with your logo which will stay on top of all other zones

## Date

Display the date in a variety of formats, sizes and in whatever colour you want
